

# Dansk Selskab for Tand-, Mund-, og Kæbekirurgi inviterer til 70-års Jubilæumssymposium & Gallafest

## “Esthetic aspects in implantology”

Lørdag d. 3. september 2022, Clarion Hotel, København

**Både medlemmer og ikke-medlemmer er velkomne**

**Daniel Buser**

**Christoph Hämmerle**

**Mariano Sanz**

**Markus Schlee**

**Heino Hansen**

**Hardinger Band**

## Gold sponsors

# Program

**08.00-08.30**

Registrering

---

**08.30-08.45**

Velkomst

---

**08.45-10.15**

30-years of guided bone regeneration in implant dentistry. Latest developments and current surgical techniques.

**Daniel Buser**

*Daniel Buser, Professor emeritus, School of Dental Medicine, University of Bern-Bümpliz and Center for Implantology Buser & Frei, Bern-Bümpliz, Switzerland.*

*This lecture will present the development of guided bone regeneration in implant dentistry since the late 1980's. Different surgical techniques and use of autogenous bone graft, bone substitutes and barrier membranes to optimize the treatment outcome and reduce post-surgical complications will be presented and illustrated by clinical and radiographic cases with a 10-years observation period. A special emphasis will be given to esthetic sites in the anterior maxilla and to implant sites in the posterior mandible.*

**10.15-10.45**

Kaffepause og udstilling

---

**10.45-12.15**

Bone augmentation procedures in conjunction with placement of implants to improve the long-term esthetic result.

**Christoph Hämmerle**

*Christoph Hämmerle, Professor emeritus, Dr. h.c. Center of Dental Medicine, Clinic of Reconstructive Dentistry, Zürich, Switzerland.*

*Regeneration of bone in conjunction with implant placement is an inseparable part of modern implant therapy. Whereas about 40% of implant sites throughout the oral cavity are performed with some form of bone augmentation, this value mounts to almost 100% in esthetic areas. On the one hand, adequate bone integration of the implant is necessary to absorb the loading forces and on the other hand the bone is also critical for achieving and maintaining stable and pleasing soft tissue esthetics. This presentation will discuss different clinical procedures and materials to augment bone in esthetic implant sites and how this bone reacts over time.*

---

**12.15-13.15**

Frokost

# Program

## 13.15-14.45

Soft tissue augmentation procedures for promotion of peri-implant health and esthetics.

**Mariano Sanz**

*Mariano Sanz, Professor, MD, DDS, DrMed, DrHC4, Faculty of Odontology, University Complutense of Madrid (Spain).*

*Soft tissue grafting procedures are increasingly performed in conjunction with dental implant therapy to improve the peri-implant soft tissue health and esthetics. In this presentation, three important indications and different surgical techniques to enhance the amount of peri-implant keratinized tissue, increase the thickness of peri-implant tissues and treatment of peri-implant soft tissue dehiscence will be presented. Furthermore, indications, surgical techniques and used biomaterials will be discussed.*

---

## 14.45-15.15

Kaffepause og udstilling

## 15.15-16.45

Insights into peri-implantitis and treatment concepts.

**Markus Schlee**

*Markus Schlee, DDS, PhD, Zahnärzte für Implantologie und Parodontologie, Zahnarztpraxis Dr Markus Schlee & Kollegen, Forchheim, Germany.*

*Managing peri-implantitis is currently one of the biggest unsolved problems in implantology and its prevalence is increasing. Due to the macro- and microstructure of dental implants, the effective decontamination of implants is difficult with conventional methods like brushes, chemicals, or lasers. In this lecture, treatment of peri-implantitis and limitations will be discussed as well as GalvoSurge in the treatment of peri-implantitis.*

# Gallafest

**18.30-19.00**

Velkomstdrinks

---

**19.00-01.00**

Gallafest med stand-up comedy ved Heino Hansen, musik ved Hardinger Band & fest med DJ.

---

**01.00**

Tak for i aften

# Tilmelding

- Tilmelding til jubilæumssymposiet og gallafesten sker på [vores tilmeldingside her](#) eller via mail med fulde navn til: Info@dstmk.dk

Indbetaling med fulde navn samt navn på evt. ledsagere til reg: 1551 – konto: 6493440

- Tilmelding til jubilæumssymposiet inkluderer fagligt program, frokost samt kaffe og kage i pauserne
- Gallafesten inkluderer velkomstdrink, 3-retters menu & vinmenu, kaffe/te, fri bar inkl. udvalgte cocktails
- Underholdning leveres af Heino Hansen og dansevenligt musik ved Hardinger Band og DJ
- Ledsagere er ligeledes meget velkomne til gallafesten
- Tilmeldingen registreres først, når indbetalingen er modtaget

# Pris\*

## Tidlig tilmelding, før 1. maj 2022.

- Deltagelse i jubilæumssymposium og gallafest for **medlemmer** af DSTMK ..... **4.000,-**
- Deltagelse i jubilæumssymposium og gallafest for **ikke-medlemmer** af DSTMK ..... **4.500,-**
- Deltagelse i gallafest for ledsager ..... **1.700,-**

## Sen tilmelding, efter 1. maj 2022.

- Deltagelse i jubilæumssymposium og gallafest for **medlemmer** af DSTMK ..... **4.500,-**
- Deltagelse i jubilæumssymposium og gallafest for **ikke-medlemmer** af DSTMK ..... **5.000,-**
- Deltagelse i gallafest for ledsager ..... **1.950,-**

# Hotelværelse og parkering

Hotelværelse kan bestilles til reduceret pris på mail: [booking.cph@choice.dk](mailto:booking.cph@choice.dk)

Husk at oplyse koden **3034GR030037**, som er nødvendig for at værelset kan bestilles til reduceret pris.

- Standard dobbeltværelse inkl. morgenmad på Hotel Clarion ..... 1.495,- dkr.
- Deluxe dobbeltværelse inkl. morgenmad på Hotel Clarion ..... 2.095,- dkr.
- Standard enkeltværelse inkl. morgenmad på Hotel Comfort ..... 995,- dkr.
- Tillæg for ekstra person ..... 200,- dkr.

Parkering kan ligeledes bestilles til reduceret pris på:  
<https://www.cph.dk/en/parking-transport>

Koden til parkering er **clarion22hotel**
