

Assistant Professor in Oral Surgery at the Department of Odontology

Faculty of Health and Medical Sciences, University of Copenhagen

We are looking for a highly motivated and dynamic researcher for a full time 3-year position to commence December 1st, 2019 or as soon as possible thereafter.

Information on the department can be found at: www.odontology.ku.dk

The Assistant Professor will be required to undertake research, teaching and dissemination tasks within oral surgery and related fields.

Our research

The Department for Oral Surgery provides diagnostics and surgical treatment of hard and soft tissue diseases and conditions related to teeth and jaws. Special emphasis is on surgical removal of retained teeth, surgical endodontics, implant dentistry, and regeneration of hard and soft tissues before and in conjunction with implant placement.

Your job

The position entails research – including an obligation to publish and communicate scientific findings and provide research-based teaching as well as conducting related exams within the field of oral surgery.

The applicant must be prepared to undertake teaching assignments within other disciplines at the Department of Odontology.

The assistant professor's responsibilities will primarily consist of:

- research, including publication/academic dissemination duties
- research-based teaching
- sharing knowledge with society
- participation in formal pedagogical training program for assistant professors

To a limited extent, the post may also involve administrative functions. The distribution of the individual assistant professor's functions may vary periodically according to the requirements at the department, but will qualify the assistant professor in both research and teaching. During the term of employment, supervision will be provided as well as possibilities of educational upgrading with a view to a final written evaluation of the assistant professor's teaching qualifications.

Profile

We are looking for a motivated and enthusiastic scientist with the following competencies and experience:

Ansøgningsfrist: 30-09-2019

SØG STILLINGEN

- You hold a PhD degree within the field of oral surgery and a DDS degree, or equivalents
- You have an active interest in exploring and developing new research topics
- You have pre- and postgraduate teaching experience within the field of dentistry
- Proficient communication skills and ability to work in teams
- Excellent Danish and English skills written as well as spoken

Desirable experience and skills:

- Experience with research and teaching in the field of oral rehabilitation and related fields
- Experience with clinical research

Place of employment

The place of employment is at the Department of Odontology, Faculty of Health and Medical Sciences, University of Copenhagen. We offer creative and stimulating working conditions in a dynamic and international research environment. Our research facilities include modern laboratories and a large clinic with approx. 200 dental units, including facilities for specialist treatment.

Terms of employment

The employment as assistant professor is a full time and fixed-term position for 4 years. Starting date is December 1st, 2019 or after individual agreement.

Salary, pension and terms of employment will be in accordance with the agreement between the Ministry of Finance and AC (Danish Confederation of Professional Associations). Currently, the monthly salary starts at 33,600 DKK/ approx. 4,480 Euro (April 2018-level). Depending on qualifications, a supplement may be negotiated. The employer will pay an additional 17.1 % to your pension fund.

Non-Danish and Danish applicants may be eligible for tax reductions, if they hold a PhD degree and have not lived in Denmark the last 10 years.

The position is covered by the "Memorandum on Job Structure for Academic Staff at the Universities" of June 28, 2013.

Questions

For further information please contact **Professor, Dr Odont, Simon Storgård Jensen**, (simon.storgaard.jensen@sund.ku.dk)

Foreign applicants may find this link useful: www.ism.ku.dk (International Staff Mobility).

Application procedure

Your online application must be submitted in English by clicking 'Apply now' below. Furthermore, your application must include the following documents/attachments – all in PDF format:

1. Motivated letter of application (max. one page)
2. CV incl. education, work/research experience, language skills and other skills relevant for the position
3. A certified/signed copy of a) PhD certificate and b) Master of Science certificate. If the PhD is not completed, a written statement from the supervisor will do
4. List of publications
5. Teaching portfolio if applicable

Application deadline: September 30th, 2019

We reserve the right not to consider material received after the deadline, and not to consider applications that do not live up to the abovementioned requirements.

The further process

After the expiry of the deadline for applications, the authorized recruitment manager selects applicants for assessment on the advice of the hiring committee. All applicants are then immediately notified whether their application has been passed for assessment by an unbiased assessor. Once the assessment work has been completed each applicant has the opportunity to comment on the part of the assessment that relates to the applicant him/herself.

You can read about the recruitment process at <http://employment.ku.dk/faculty/recruitment-process/>

The applicant will be assessed according to the Ministerial Order no. 242 of 13 March 2012 on the Appointment

of Academic Staff at Universities.

Interviews are expected to be held in week 43

University of Copenhagen wish to reflect the diversity of society and welcome applications from all qualified candidates regardless of age, disability, gender, nationality, race, religion or sexual orientation. Appointment will be based on merit alone.

Københavns Universitet giver sine knap 10.000 medarbejdere muligheder for at udnytte deres talent fuldt ud i et ambitiøst, uformelt miljø.
